LARGEST CONCENTRATION OF UNDERSEA BOATS ever seen in New York, 21 of Uncle Sam's submarines from the Pacific were gathered at the Staten Island base—nine to remain and twelve to go on to other East Coast ports for the Navy Day celebrations. Here a few of the Jap-killers are shown taking their well-earned ease. (International)

New Power In Asia

By DEWITT MacKENZIE,
A.P. Foreign Affairs Analyst

ARTHUR's epitaph for broken Japan is so starkly realistic that it brings one up with a jolt:

"This ends its military might and its military influence in international affairs. It no longer reckons as a world power, either large or small."

Thus perishes an evil power which for almost 100 years increasingly dominated the Orient until finally greed impelled it to overreach itself in an effort to master and enslave not only its neighbors but to conquer great countries of the western world. We have realized, of course, that Japan has suffered complete defeat, but we are so close to this epochal event that it is difficult to sense its true immensity.

Nippon has been utterly smashed. Not only that, but she has been deprived of her ill-got gains and thrust back into her tiny island kingdom. She now lacks the resources to recover anything approaching her former position. She has been flung into the oblivion from which she emerged, almost within the memory of living man.

Now that's a fact of tremendous import. It means that a vacuum has been created in the Orient, with the disappearance of this dominant power. It is in the nature of things that something must rush in to fill that vacuum. That is, some other people will in due course take its place. What will it be?

He would indeed be gifted with rare vision who could see that now. However, the probabilities are that for a considerable period the influ-

CIO DEMANDS
CONGRESS CUT
TAXES FURTHERHouse Committee Calls for
More Facts On Atomic
Energy

(By Associated Press)
WASHINGTON, Oct. 16.—A house committee called for more facts on atomic energy. The CIO called for bigger tax cuts for small-income people and business.

That was part of the story on death and taxes—two of the big subjects today in congress.

In addition:
The senate judiciary committee okayed a bill to let President Truman reshuffle government bureaus and commissions—with congress keeping the right to veto any change. That veto proposal may bring on a stiff fight on the senate floor.

The President himself asked congress to find out whether Puerto Rico wants independence, statehood, a dominion form of government or an improved local government. This country, he said in a message, should be ready to give Puerto Rico what it wants.

Wallace Asks Boost
Secretary of Commerce Wallace urged an immediate boost in the nation's minimum wage level from 40 to 65 cents an hour. He appeared when a house committee started work on a bill to bring about the raise for employees of companies in interstate business.

The CIO said the house-approved tax bill—to cut taxes by \$5,350,000—would give "huge windfalls" to the richest individuals and corporations.

It proposed to the senate finance committee a plan to lower levies mainly for little firms and people with little incomes.
But a leading Republican, Senator Taft (R.-Ohio), handed unexpected support to the CIO's tax-chopping ideas. Those ideas differ from both the house and CIO programs.

The house military committee decided to hear four more witnesses Thursday on using atomic energy for a better life—instead of death—to the world.

There had been an outcry because the committee thus far has listened to only four experts on an atomic power bill.

ACCEPT BID ON
RESERVOIR JOB

Construction of Salem's new 3,000,000 gallon water reservoir was assured today with announcement of the acceptance by the city board of control of a \$71,165.90 bid by the Gallagher & O'Hara Co. of Youngstown for the erection of the large steel and concrete basin.

Service Director Frank K. Wilson said the contract would include a 280-day time limit for the work, thus extending completion of the project into late spring. Little work can be done during the winter months.

The Youngstown bid marked a savings to the city of \$8,843.10 over a lone bid of \$80,009 posted by the Earl Newell Construction Co. of Columbiana earlier.

The board decided at that time to postpone awarding of the contract until another letting could be held.

U. S. FARM INCOME
TO HIT NEW HIGH

WASHINGTON, Oct. 16.—A new high in farm income is in prospect this year.

The Agriculture department today estimated 1945 cash receipts from farm marketings at \$20,400,000. This compares with \$19,790,000 in 1944, the previous high, and \$17,877,000 in 1939.

Receipts from crops were about 16 per cent greater than last year with tobacco and the record wheat crop showing particularly large gains.

Cash receipts from livestock and livestock products ran about five per cent below 1944, resulting from the decline in slaughter.

RALLY SPEAKER
TELLS WORKERS
OF DUTCH PLIGHTCanvassers Begin Solicita-
tions: Final Reports To
Be Made Monday

Among the privations imposed upon the peaceful people of Holland was the loss of their homes, their clothes and their money by the marauding Nazis, according to Roelof Adriaan Schotman, Netherlands East Indies teacher and former mayor of Batavia, capital of Java.

Scotman spoke on behalf of American Relief for Holland, an agency supported by the National War Fund, at the opening of Salem's Community War Fund drive last night in the Memorial building.

Not content with flooding the best of the Dutch farm lands, and loot-

ing their homes until they were stripped of the bare necessities of life, more than 475,000 Dutchmen were deported to Germany by the invaders, as political prisoners, prisoners of war, or to perform slaves' work, said Scotman.

Community Chest workers were on the job today and by noon they had reported \$7,697.50 toward the goal of \$45,400, Chairman E. M. Stephenson announced.

Stephenson is chairman of the Community Chest board, presenting E. M. Stephenson as campaign chairman. During the dinner, served to 130 workers, Robert Barton's orchestra played and William Scullion played a solo number. Carl Willman led in group singing.

McCulloch announced a nominating committee, comprised of W. F. Deming, H. C. Hurlburt and F. W. McKee, to present names for election of 12 members of the Salem Welfare association council. The report will be submitted next Monday night, when workers meet at the Memorial building at 7:30 to submit final reports of the campaign.

Salem's Needs
Ralph Atkinson, chairman of the north county campaign, introduced the town and township chairman, J. B. Martin, co-chairman of Salem's campaign, gave instructions to the workers, and Ralph Hawley introduced Schotman.

Salem's goal in this drive is for \$25,100 for nine agencies affiliated with the Community Chest and \$20,300 for the National War Fund—a total of \$45,400.

The Salem agencies and their allotments are: Boy Scouts \$1,700, Girl Scouts \$1,900, Jayceens \$1,000, Memorial building \$7,000, Home For Aged Women \$1,500, Catholic Charities \$1,500, Central Clinic \$2,500, Salvation Army \$3,000 (including \$500 for overseas work), and Salem City hospital \$5,000.

This year the Jayceens were added to the Chest and the Girl Scouts were increased from \$1,800 to \$1,900.

Day's Wage Is Goal
In Columbiana Drive

COLUMBIANA, Oct. 16.—"Our aim is to secure a day's wages from every worker in Columbiana towards the Community War Chest drive," Chairman William Miller told captains and workers in the campaign to raise \$5,500 at the "kickoff" meeting of the Boosters club at Firestone park last night.

Intent on reaching their goal once again and raising its share of the funds to finance the important national and local projects, the Columbiana Boosters club has volunteered to take over the house-to-house campaign.

Everett H. Warrick, president of the Boosters club, has been named co-chairman of the drive and is directing the house-to-house canvassing.

Literature and instructions were issued to the workers last night and the campaign got under way with hopes that it will be over the top by the end of the week.

A plant canvass is also under way. Of the total to be raised, \$2,850 goes to the USO and other national projects, \$600 to the Salem hospitals, \$400 to the Columbiana Boys Scouts and the balance of \$1,650 to various local relief agencies in the community.

THIRD FLEET
SHIPS DOCKEDArmada Berthed In West
Coast Ports, Awaiting
Navy Day Programs

SAN FRANCISCO, Oct. 16.—Riding quietly at anchor today in more than a dozen west coast ports are ships of the mighty U. S. Third fleet, whose naval exploits against the Japanese are legendary.

Most of the contingents which will be berthed in California, Oregon and Washington harbors until after Navy day celebrations Oct. 27 dropped their "hooks" yesterday and received tumultuous welcomes.

Leading the parade was Admiral William F. (Bull) Halsey, Jr., whose flagship, the U.S.S. South Dakota, was in the vanguard of 14 deadly grey warcraft which slid triumphantly through the Golden Gate.

Detachment of sailors and marines from each of the 14 ships will march up San Francisco's Market st. this afternoon from the embarcadero to the city hall where civic officials will serve a buffet lunch to Halsey and his men.

The display of naval might was the greatest seen in San Francisco bay since the "Great White Fleet" entered the harbor in 1908.

At San Diego the ponderous Battleship West Virginia and the Escort Carriers Sargent Bay and Kadesh Bay warped to their anchorages yesterday carrying more than 1,000 high point men due for discharge and the last two battalions of the 24th Marine regiment.

Los Angeles greeted the Battleships Texas and Nevada, and the Destroyers Collett and Maddox with a bedlam of shrieking whistles and shouts of welcome. Admiral Halsey is expected to arrive by plane there tomorrow from San Francisco.

The noon arrival of the Battleships Iowa and Arkansas at Seattle was delayed several hours when the two vessels were fogbound in Puget sound, but the dreadnaughts were able to drop anchor late in the afternoon.

Communists Rule In Berlin,
Eisenhower Report States

(By Associated Press)
WASHINGTON, Oct. 16.—Gen. Eisenhower said today "Informal reports indicate a fair and impartially supervised election in Berlin would not support the present Communist party dominance" of the city's government.

The general put into his second monthly report on military govern-

ment in the American zone of occupation a critique on politics in Germany—including those in the Russian zone.

Eisenhower declared one of the political devices fostered by the Communists in Berlin—a bloc of parties—would have no welcome in the American zone.

Here is what he had to say about Berlin, where the Allied control authority has its headquarters and where the four Allied powers have four zones:

"Four organized parties exist there. They were granted permission by the Soviet military authorities to organize and so were functioning when United States forces occupied the U. S. sector of Berlin. The four parties are the Communist party, the Social Democratic party, the Christian-Democratic union, and the Liberal Democratic party."

Two Well Organized
"The first two are well organized, active and have a basis of former members on which to build. The latter two groups are new parties, though drawing support from middle class, conservative bourgeois elements formerly associated with the center, the German Democratic party, and the German People's party. They are less well organized and less active than the Marxist parties. This is especially true of the Liberal Democratic party."

"The Communist party of Germany holds a majority of the strategic posts in the Berlin magistrature and in the administrations of the Berlin municipalities. Informal re-

MINE OWNERS
ARE HOPEFUL
OF SETTLEMENTOperators Meet Again Af-
ter Efforts of Govern-
ment Fail

WASHINGTON, Oct. 16.—Soft coal operators met here again today, clinging to hope a settlement still might be reached in the bituminous strikes despite collapse of government negotiations.

Conferences between the operators and John L. Lewis' United Mine Workers, under the guidance of Secretary of Labor Schwellenbach bogged down last night, after 10 days of sessions.

The Solid Fuels administration said if the strikes continued until the end of this week cotton mills in the southeast would be forced to shut down.

About half of the normal output is being lost daily through the strikes, involving more than 200,000 miners.

Rationing of soft coal was not being considered by the SFA, however, on the theory that there would either be enough bituminous fuel or there would be none at all.

No Seizure Order Seen
Interior Secretary Ickes said after a White House call today he did not think it would be "advisable" for the government to take over the coal mines again.

Collapse of the government-sponsored coal talks, although disappointing to Schwellenbach, freed him for consideration of a proposal to set up a tri-partite commission for handling the reconversion wage price problems.

Lloyd K. Garrison, former dean of the University of Wisconsin law school and vice chairman of the board, was sworn in today by Associate Justice Felix Frankfurter of the Supreme court, as chairman of the board for the remainder of its existence. It is planning to complete its work before Jan. 1.

Hope was revived, for a new approach to the broader reconversion wage-price problem.

Secretary of Labor Schwellenbach last night wound up "subject to call" his fruitless negotiations with the bituminous operators and John L. Lewis over the mine formen's unionization issue.

The labor secretary said his settlement attempt—with 200,000 miners idle and half the nation's normal soft coal production closed down—had collapsed. But he still had hopes, he told reporters, for some solution.

On the wage-price subject, President Truman was reported "very receptive" to a recommendation from War Labor members that he set up a new three-sided group to devise a reconversion pattern.

It was learned the WLB members themselves demurred from accepting a presidential invitation to establish such a yardstick.

Pick Greenamyer

An Important Campaign

Two important points should be kept in mind by contributors to Salem's Community War Chest Fund as workers solicit them in the campaign this week to raise \$45,400. Of prime importance to Salemites is the fact that if the total goal is not reached, the city's Community Chest will not be filled. There is an obligation to give the National War Fund its proportionate share of the fund raised. That means that the city cannot retain the first \$25,100 required for the nine agencies supported by the Community Chest and send the balance to national headquarters if that balance is less than the quota of \$20,300.

The Salem agencies are so well established and their requirements so thoroughly recognized by the public that failure to raise the full quota would be disastrous. In this post-war period their work is essential to the community's welfare and progress. It is a time when work of this character must be expanded, rather than face the prospect of lowering the standards and benefits because of lack of sufficient funds. It is a time when the Community Chest campaign must not fail.

The second important point is that the National War Fund is just as essential today as when the fighting phase of the war was in progress. The war and its effects are not over for thousands of our boys in foreign lands. They still need the entertainment and the attention provided by the USO, which receives a large share of the national fund. And countless millions of people in Allied countries are homeless and helpless, without clothing, food and other necessities of life. They must be helped until they are able to rehabilitate themselves. The people of America have never let the privations of peoples of other countries throughout the world go unanswered. Salem has the reputation of always having done its share in providing such help. It cannot afford to jeopardize that fine reputation now.

A Worthy Organization

Last week the Travelers club celebrated its fiftieth anniversary in recognition of a half century of progress as a literary organization and of a contribution to the cultural side of Salem's community life. Its long and successful career attests to the firm foundation set up by its organizers fifty years ago. Few social or literary groups are held together so long. Few of them grow and expand the worthiness of their purpose as has the Salem Travelers club. It is not only outstanding in these respects but it has implanted itself in the cultural life of Salem so firmly that it is one of the recognized assets of the community. To its founders The News is glad to pay tribute and to those who have kept it a thriving, worthy organization go our congratulations and best wishes for the future.

Himmeler's Angels of Mercy

The skin-prickling testimony of a German "murder factory" chief that his part in mass murdering represented an act of mercy—because the victims were sick and unfit to live—brings Nazi extermination policies into the realm of euthanasia.

There is abundant evidence that many of the mass murder victims would have died soon had they not been killed. In most instances, everything possible had been done to bring them to the state of imminent death; they had been starved, abused and exposed to disease. They were suffering.

It was a logical step in the inverted reasoning of the Germans responsible for the policy of mass murder to terminate their misery by death, instead of mitigating it by treatment. To the Nazi masters and apparently to the obedient puppets who carried out their ideas what objectively was cold-blooded murder seemed to them to be mercy killings.

That does not mitigate their crime against society, but only makes it more horrible. Ways and means can be found for dealing with palpable insanity. The kind of insanity that is most baffling—and most frightening—is being reviewed in the German atrocity trials, the kind that methodically and coldly can rationalize the extermination of allegedly inferior and helpless human beings.

Separating The Issues

No more unfortunate thing could have happened to the move to make congressional service more attractive than to let it get mixed up with the labor union drive for higher postwar hourly rates. There is no connection.

The proposal to raise the salaries of congressmen is part of a movement to revitalize the national legislature. At least it has been accepted as promising to have that effect if successful. The issue is not between \$10,000 a year, the present salary, and some higher figure as a matter of higher living costs, but between the existing rate and the probability that a higher one would attract a higher type of candidate. It is the hope of those who believe in the higher rate that the least of its consequences would be to cancel some of the objections by potential candidates who say they cannot afford a legislative career. The object is not to give members of Congress a boost in pay because they want it, but to give the country the possible benefits of a boost in the quality of the members of Congress.

Anything that tends to make this seem to be part of the issue of postwar industrial wage rates—a collective bargaining situation with strong inflationary overtones—is misleading and probably malicious. Every member of Congress could be given twice what he is getting now with less than a \$5,000,000 annual net addition to the cost of running the national government. If the increase brought only one better congressman to Washington, it could be more than paid off with a single good idea.

Same Trap. Same Bait

It is rare to read a newspaper or magazine without learning how inefficiently the United States is running its occupation zone in Germany, compared with the efficiency of Soviet Russia, Great Britain and France.

There is only one thing wrong with such lamentations. They do not tell us why the Russians, British and French are so much better, but only why our own administration is so bad. They ask the reader to assume that the others, therefore, must be better.

The United States probably is botching its job in Germany. The job is in the hands of homesick men who have been encouraged by politicians to think military victory was the signal for automatic demobilization of our armed forces; they are in no mood for the long-range job of securing the victory their comrades died to win.

In the second place, they are tackling a thing no one ever has been loved for trying to do: administration of a resentful population. The Germans couldn't do it after they conquered most of Europe. The Russians aren't winning any popularity contests. The British, who are supposed to be experts, will have to do better in Germany than they have done, say, in India. The French are notoriously inept administrators.

So it is not surprising that Americans aren't much good either. The only surprising thing is that we are still suckers for the same old trap with the same old bait—the conclusion that we must be dumber than everybody else because we don't seem to be any smarter.

The Stars Say

For Wednesday, October 17.

ALTHOUGH this may prove to be a very lively and interesting day with much stirring about with mental activity as well as physical energy pitched to high purpose and accomplishment, yet there may be several situations or complications to perplex and negative the most strenuous and ambitious efforts. New contracts, agreements and associations are probable, with travel, change, new propositions or deals in which straightforward and honest agreements succeed.

If It Is Your Birthday

Those whose birthday it is may anticipate a lively and interesting year in which change, travel, new associations as well as fresh and attractive proposals or opportunities are alluring and thrilling. However, there are several petty or trivial complications or perplexities in which adaptability, keen insight, together with direct action and honest purpose should win out against dubious situations. New contracts, writings, publicity, correspondence, should be carefully checked.

A child born on this day will have much versatility and adaptability, a keen mind and physical energies, which, promise success and a lively career, if soundly maneuvered.

GUARDING YOUR HEALTH

Ways To Prevent A Cold

By HERMAN N. BUNDESEN, M.D.

A COLD is an acute infection of the nose which may or may not involve the throat. There is blocking of the nose, increased mucus formation, some pain or discomfort and, in certain instances, fever.

According to Doctor Arthur W. Proetz of St. Louis, these symptoms may be brought about by a number of different causes because the nose is exposed to all sorts of influences. The nose reacts to nervous and glandular disturbances, to nutritional disorders, and to other toxic or poisonous substances which may get into the circulation.

Nose Exposed

From the outside, the nose is exposed to many kinds of atmosphere, to great changes in temperature and moisture in the air. Dust, pollen, and other materials are deposited on the lining membrane of the nose.

Before the actual symptoms of a cold develop, the lining membrane of the nose may be attacked by a virus, that is, an organism so small that it can pass through a porcelain filter, or there may be changes in the circulation of the lining membrane of the nose which permit infection with germs to follow. It is the action of the bacteria or germs that causes the discomfort, discharge, and swelling of tissues.

In the prevention of colds, Doctor Proetz believes it is important that certain things be done to maintain the health of the nasal passageways. The airways through the nose must be free and fairly equal in size. There should be no constriction and, if there is an overgrowth of bone, called a spur, in the nose, this must be removed. When a part of the nose is blocked it is really "out of service."

Lining Membrane

The nasal passages should drain freely. The nasal lining membrane should be properly nourished, and the nerves which control the blood vessels in the nose should not be over-sensitive and over-active. Treatment of allergy or over-sensitiveness may be needed to produce this result.

The cells in the nasal lining membrane are equipped with tiny hair-like structures called cilia. If these cilia are working properly and there is a proper protecting coat of mucus over the membrane, colds are much less likely to occur.

Thus, it would seem important in the prevention of colds in persons who have them frequently that, among other things, steps be taken to put the nose in proper condition.

Dr. Bundesen will answer letters containing medical questions only.

DO THE DEAD RETURN?

A strange man in Los Angeles, known as "The Voice of Two Worlds", tells of astonishing experiences in far-off and mysterious Tibet, often called the land of miracles by the few travelers permitted to visit it. Here he lived among the lamas, mystic priests of the temple. "In your previous lifetime," a very old lama told him, "you lived here, in this temple. You and I were boys together. I lived on, but you died in youth, and were reborn in England. I have been expecting your return."

The young Englishman was amazed as he looked around the temple where he was believed to have lived and died. It seemed uncannily familiar, he appeared to know every nook and corner of it, yet—at least in this lifetime—he had never been there before. And mysterious was the set of circumstances that had brought him. Could it be a case of reincarnation, that strange belief of the East that souls return to earth again and again, many lifetimes?

Because of their belief that he had formerly been a lama in the temple, the lamas welcomed the young man with open arms and taught him rare mysteries and long-hidden practices, closely guarded for three thousand years by the sages, which have enabled many to perform amazing feats. He says that the system often leads to almost unbelievable improvement in power of mind, can be used to achieve brilliant business and professional success as well as great happiness. The young man later became a noted explorer and geographer, a successful publisher of maps and atlases of the Far East, used throughout the world.

COLUMBIANA

Rev. Carlton J. Sutorius, who last year resigned the pastorate of Jerusalem Lutheran church here on account of ill health, has been installed pastor of the Lutheran church in Coral Gables, Fla.

Clifford Farmer, son of Mr. and Mrs. C. Y. Farmer, R. D. 2, Columbiana, who is a junior in Heidelberg college, Tiffin, is a member of Heidelberg concert choir.

Joins Reserves

Lieut. David H. Culp, who received an honorable discharge at Drew field, Tampa, Fla., is visiting his parents, Mr. and Mrs. H. C. Culp, Main street. He served with the 8th Air Force, 48th Bombardment group in England, as pilot of a Flying Fortress. He has re-enlisted in the Air Force Reserves, in which he will retain his rank.

Mrs. C. J. Roller has gone to Riverdale, Md., where she will spend several months with her sister, Mrs. F. M. Ferris, and her nephew, Lieut. Col. Edwin Ferris, a patient in Walter Reed hospital.

Plan Joint Meeting

A joint meeting of the Sorosis and the Music Study club will be held in the Presbyterian church at 8 p. m. Wednesday.

This year the Sorosis is host. Miss Emma Cook of Youngstown has been engaged to present the program of entertainment, which will be followed by lunch. The committee includes Mrs. John Gilchrist, Mrs. Clyde Richardson, Mrs. R. J. Barrow, Mrs. E. T. Coyle and Mrs. R. M. Gayer.

The Shonitz & Son grocery has been sold to W. E. and J. K. McCarter, brothers, of Darlington, Pa. Elton Strausbaugh, formerly of Columbiana, and Miss Evelyn Miller of Dayton were married recently in West Dayton Church of the Brethren. Rev. G. S. Strausbaugh of Columbiana, formed pastor of the Church of the Brethren here and father of the groom, performed the ceremony.

Rev. Strausbaugh was accompanied to Dayton by his wife, son-in-law and daughter, Mr. and Mrs. Wilbur Detwiler, and Miss Naomi Miller. The couple will make their home at Elkton, Md., where the groom is stationed as a conscientious objector.

Opportunities to buy to advantage are found daily in The News classified advertising columns.

NEW NAVIGATION AID 'SEES' THROUGH STORM, DARK AND FOG

Navigator on trans-Atlantic plane charts exact position by loran device which measures differences in radio pulse travel time in millionths of a second. Signals are sent by a pair of transmitting stations

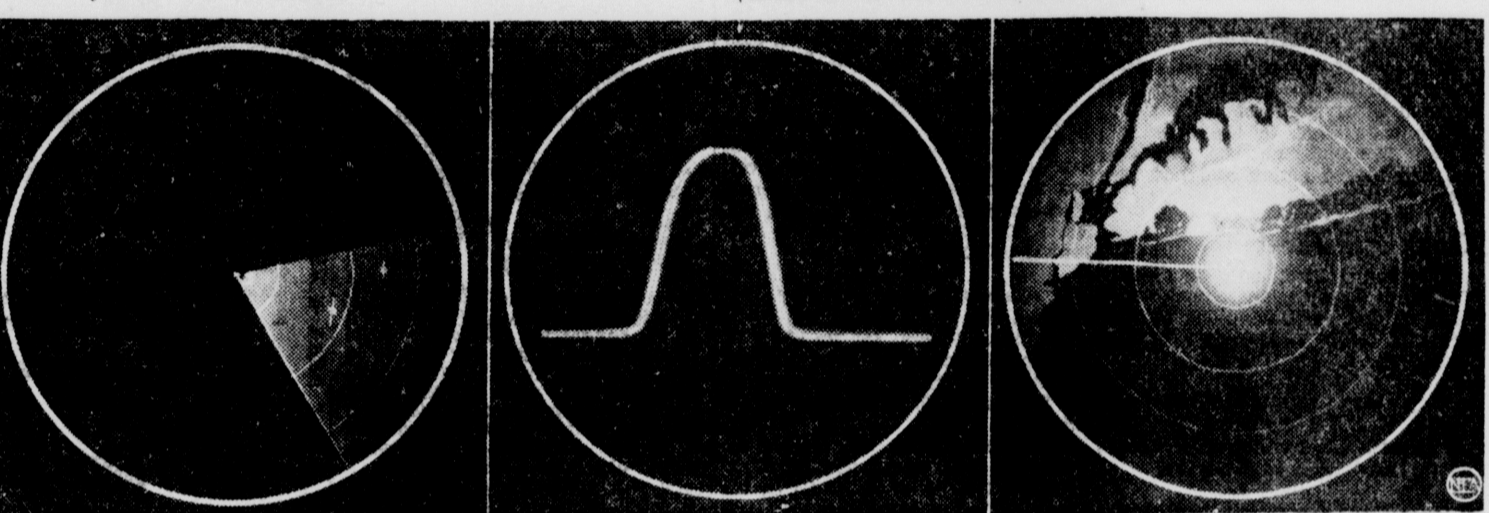

—one in New Jersey and one in Massachusetts. Radio altimeter constantly indicates height above the earth (as shown by small arrows). Pilot follows radar beam.

Loran will make flights around the world as safe and certain as street car trips downtown, scientists claim. Trans-Atlantic planes are already using loran (Long Range Navigation) as all-weather navigation aids.

A peace-time application of radar and electronics, loran eliminates former aviation hazards of fog, snow, clouds and darkness. Pilots and air control officials now can "see" through storm and night, many miles beyond the range of human eyes in clear weather.

Loran employs pairs of transmitting stations, each of which sends out radio impulses. In the airplane, a loran receiver measures the difference in radio wave travel time in millionths of a second, permitting the navigator to chart his exact position.

Approaching his destination, the flier is guided through clouds or in darkness by radar installations. Loran signals indicate his position on the radar scope as he comes in for a landing. The all-weather navigation aid is a direct development of wartime research in electronics.

Airport traffic control radar scope shows presence of three approaching planes. Scope shows planes as "pips" of light.

By keeping two loran signals superimposed, plane comes "home" to landing field on loran line of position.

Western Long Island would look like this to an approaching plane. Radar scope would "see" this area through overcast.

Drive With Caution On Trips To Football Games

Countless Ohio football fans will be driving to and from games for the next 8 weeks, reminds A. P. Morris, secretary of the Columbiana county Automobile club. Many of them will be involved in traffic accidents unless they practice the same good sportsmanship in driving which they expect to see on the football field.

A violation of a football rule results in a penalty against the offending team. A violation of a traffic rule on the way to or from a football game may result in injury or death to one or more people. Be "football wise"—wait for an opening in traffic before trying to pass.

and when in doubt about passing, DON'T!

If your game involves a trip of some distance, leave early enough so that you don't have to speed to be on hand for the kickoff.

COOKED A FINE DINNER; THEN THREW IT TO DOG

One lady recently stated that she used to throw her own dinner to the dog most of the time. It made her sick just to look at anything to eat. She was swollen with gas, full of bloated, had headaches, felt worn out and was badly constipated. Finally she got ERB-HELP and says she now eats everything in sight and digests it perfectly. Bowels are regular and normal. She is enjoying life once more and feels like "some other woman" since taking this New Compound.

ERB-HELP cleanses 12 Great Herbs; they cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Lease Drug Stores.

Coast Guard Cutter Runs Iceberg Blockade

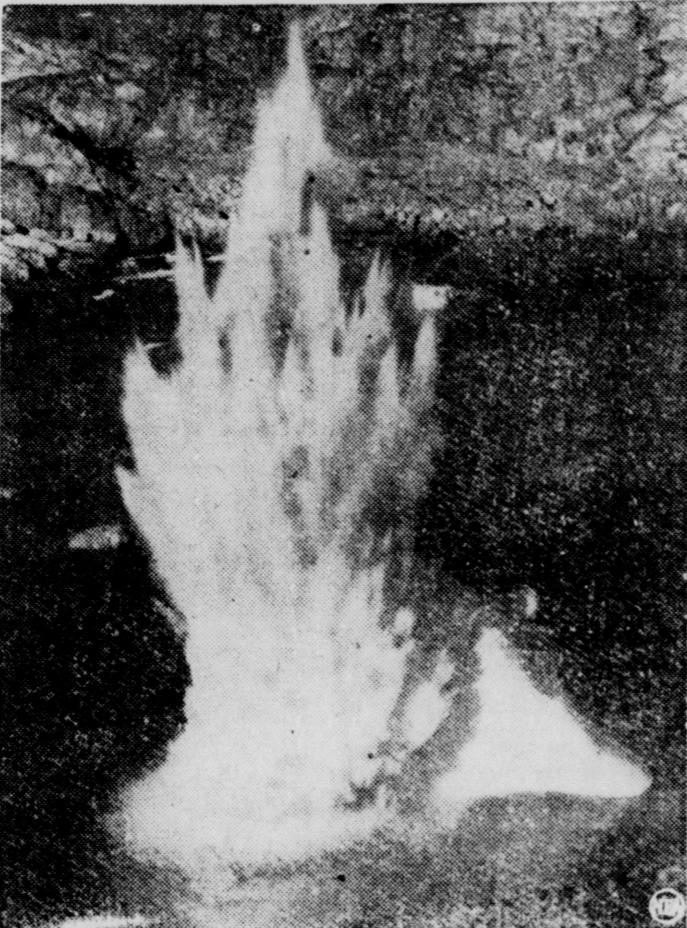

FAR FROM CIVILIZATION, the Coast Guard cutter Storrs lies in a narrow channel off Skjoldungen, Greenland. The cutter had been on a mercy mission, to rescue 11 men caught in a landslide. Survey of ice conditions reveals that both exits are blocked.

Retailers Urged To Fight Inflation

(By Associated Press)
BOSTON, Oct. 16.—Reconversion Director John W. Snyder today asked retailers and wholesalers to help in fighting inflation until manufacturers can come with the demand for goods built up in four years of wartime scarcity.

In an address prepared for the 17th annual conference on distribution here, Snyder said the accumulated demand for durable goods equals about two years of sales at the high 1940 rate.

Many of the 7,000,000 new families created by wartime marriages have been unable to buy the furniture, pots and pans, rugs and household equipment needed to set up homes, the chief of the Office of War Mobilization and Reconversion asserted.

"There will be a continuous upswing in demand for the furnishings and all manner of household appliances which newllyweds need," Snyder stated.

"We must fight this threat of inflation as we would the plague. The first and best way to fight it is to produce more goods."

Methodist Pastors Plan New Evangelism Program

Pastors and representatives of Methodist churches in Lisbon, Wisconsin, East Rochester and Damascus gathered last night in the local church for the first business session of the conference year.

Dr. Paul Carter of Steubenville, superintendent of the Steubenville district, outlined the program of evangelism for the 1945-46 conference year. Approximately 75 were in attendance.

PIN-WORMS GO! New Treatment Gets Real Results

People don't like to talk about Pin-Worm infection. Sometimes they are too embarrassed to mention the tormenting rectal itching. And in many cases they have not known of any effective way to deal with this pest that lives inside the human body.

Today, thanks to a special, medically recognized drug (pentan violet), a highly effective treatment has been made possible. This drug is the vital ingredient in P.W., the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son.

The small, easy-to-take P.W. tablets act in a special way to remove Pin-Worms. So if you suspect Pin-Worms in your child or yourself, ask your druggist for a package of JAYNE'S P.W. right away, and follow the directions. Satisfaction guaranteed or your money back. It's easy to remember: P.W. for Pin-Worms!

Husband Goes On Trial In Wife's Traffic Death

LISBON, Oct. 16.—Criminal court opened yesterday as the jury was seated and the defense counsel made opening statements in connection with the second degree manslaughter charge placed against Daniel Eakins of Youngstown, whose wife was killed when his coal truck upset near Rogers May 22.

Eakins has pleaded not guilty. County officials have charged him with reckless operation, which, it is claimed, was the contributing factor to his wife's death.

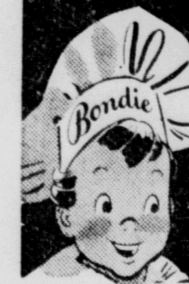

Four is considered an unlucky number in some parts of the Far East.

Navy Mother Collapses While Welcoming Fleet

SAN FRANCISCO, Oct. 16.—An elderly mother, one of whose two navy sons is missing in action, paid with her life yesterday because she thought that waving a welcome to units of the Third Fleet was the "least I could do."

Mrs. Elizabeth Arnold Heggie, 60, of Oakland, Calif., had been warned by her doctor that her heart might not stand any unusual exertion, but she told her friends she was going to be on hand when the fleet came in.

"It's the least I can do," she said. Bystanders saw her trudge slowly up San Francisco's Telegraph hill, a favorite vantage point for watchers. Suddenly she swayed and fell. She was dead when an ambulance brought her to the harbor emergency hospital.

Scoutmasters and committeemen from throughout Columbiana county met last night in the Lisbon High school auditorium and heard Kenneth A. Wells, assistant National director of Boy Scout camping and special events, speak on a program of troop training.

Wells demonstrated various phases of scout outdoor work and gave a realistic first aid demonstration for the group, which included 36 leaders.

Don Gay, county scout executive, was in charge of the meeting.

Quakers To Face Struthers Big Red At Stadium On Friday

Quakers' 27-0 Defeat By Leetonia, Clipper-Bears' Tie, Poises Good Question

Columbiana's 0-0 tie with Leetonia Saturday brings to many Salem fans' minds an interesting question: Was Leetonia actually 27 points better than Salem, or was it just a hot night for the down-count gridders?

It's a hard one to answer, and yet it is right in line with the old game of football—there can be no question of that.

Salem and Columbiana have practiced together on several different occasions. At no time was a full 48-minute regulation game played and at no time was a score kept, but it certainly didn't appear from those workouts that Columbiana was 27 points better than the Quakers.

All this boils down to the one factor which seems to be most obvious in both the Salem-Leetonia game and the Leetonia-Columbiana contest.

Leetonia Keyed Up

In the Salem-Bear fray Leetonia was definitely out to win. The team was "keyed" to that high point which only comes for the Bears once each year in the bitter rivalry that has grown up between the schools through the past four years of play.

Leetonia was "up," they won the ball game easily by the largest score a Leetonia team ever piled up on a Salem team, which obviously was weakened considerably by a bad case of the "jitters" and miscues.

Last Saturday Leetonia's gridders still had the desire to win, but the game came as somewhat of a let-down for them after their easy success in the Salem game.

Columbiana, on the other hand, has been pointing to the Leetonia fray and went over to the neighboring city with a fierce determination that they were not going to be beaten.

The Clippers were "keyed up" completely. They had everything to win and very little to lose. Everyone expected Leetonia to win by a one-sided score—but they didn't.

That's football and it is a tough angle to explain at any time.

The Clippers were ploughing hard, hitting hard and just would not give in when Leetonia threatened to score. Their spirit held.

Spring Practice?

Five of 7 County Teams, Including Salem High, Plan No Change

Five of Columbiana county's seven high schools—including Salem—indicated today that the change in football regulations, allowing spring practice, will not effect a change in their athletic programs.

Only Leetonia and East Liverpool, both without track teams for several years, are planning spring football workouts this year, while Salem, East Palestine, Columbiana, Lisbon and Wellsville are expected to continue without the grid workouts.

Coach Ben Barrett of Salem said "no definite decision has been made here, but it is expected that we will continue to emphasize track here in the spring and will start our football Aug. 20, as was the case this year."

Principal Edgar Miller of Columbiana said the athletic council there had not discussed the matter as yet, but indicated that track will again be in force in the spring and he said he questioned whether football and track could go at the same time in the smaller school.

Leetonia Will Change

Principal James L. McBride of Leetonia said Coach Charlie Mather favored spring football and that he himself had voted for it because "coaching limitations and equipment shortages are easing somewhat now."

He said Leetonia would definitely have spring practice and then would open fall workouts on Sept. 1, instead of Aug. 20.

East Liverpool is expected to revive the former practicing schedule, which is optional with schools under the new Ohio High School Athletic Association referendum.

East Palestine, Wellsville and Lisbon indicated they would continue to open workouts earlier in the year and do without spring practice.

Seek Third Win Over Team Formerly Coached By Salem Mentor; Series Score Even

Salem's grid warfare prospects are looking up this week as once again the Quakers enter a Friday home fray favorites to win over the visiting Struthers Big Red.

Coach Ben Barrett's charges—beaten twice, winners twice and tied once in five games—showed a definite improvement in play, spirit and aggressiveness Friday against Wellsville, and the game here Friday looks like another possible victory for them.

Pleased with the showing of his line against Wellsville, Barrett has optimistic hopes for the balance of the season, during which Salem will meet Girard, East Liverpool and Lisbon, besides Struthers.

Boone Back

Bob Boone, laid up in the Bengal fray with a "Charley Horse," Eddie Bosick, Dan Smith, Jim Laughlin, Howard Herrington, Ted Boone, Marion Faini and Bob Roessler are all in good shape and ready for action in the backfield.

One of the most encouraging aspects of that picture, Barrett says, is that only two of those backs—Smith and Roessler—will graduate this year, leaving him a good, experienced set of backs for the 1946 season.

In addition to those in good shape, Walt Ehrhart, now out with a bad knee, and also a Freshman, will be around next season. Ehrhart probably will not be in shape for work this week.

The line stacks up in good physical condition also. Jack Crawford, who returned to play with a bang at Wellsville, has recovered slight injuries and will be around this week. "Little Dynamite" Lee Sproat, who will tackle anything from a brick wall on down, is expected to be over his ankle injury and back in uniform by Friday, also.

Sproat To Return

Sproat is one of the spunkiest linemen Barrett has. Mo Hollinger, who Barrett says is the most aggressive defensive center he has coached in Salem, will also be around Friday.

Big Louis Juliano, a tower of strength in the forward wall, has survived all battles so far without injuries and is ready to go. The balance of the starting line, and the subs, are reported in good shape.

Barrett has a special place in his heart each year for the Salem-Struthers game.

A former coach at Struthers for eight years before coming to Salem in 1943, Coach Ben Barrett always likes to come out of the Big Red game with a win.

Barrett Wants Win

Last year the visitors here pulled a surprise and whipped Salem on a wet, muddy night. Previously, Barrett had posted an unimpressive win over the Struthers men in a game here in '43.

His goal this season—and it won't be easy—is to make the 1945 game an all-Salem affair.

Encouraged last week by the performance of Eddie Bosick, the 135-pound Freshman who filled the left half job, Barrett believes his backfield is now coming around to what he had hoped for earlier in the year.

"Bosick is what we have been looking for," Barrett said today, "he is the sparkplug that has been missing all season and we hope to show improvement each time out."

SPORT CHATTER

BY HUGH FULLERTON, JR.

NEW YORK, Oct. 16.—War dept.: Maybe Michigan's Fritz Crisler thought it was only polite to answer a question, but he probably let himself in for a pack of trouble when he told New York football writers yesterday that Army's Glenn Davis and Doc Blanchard are a better pair of backs than Ohio State's Paul Sarringhaus and Dick Fisher. From now on, the Buckeyes will be out to make Fritz eat those words—and Sarringhaus' name along would make quite a mouthful. Fred Fitzsimmons, the old Dodger, and former Phillips pilot, will be business manager of Bill Cox's Brooklyn Football club when the All America Conference gets going.

TODAY'S GUEST STAR

Hal Middlesworth, Oklahoma City, Oklahoman: One of the earliest precepts of our baseball education was: "Don't ever forget that the American league is the American league and that the National is a minor." Too often we have disobeyed, as when we picked the Cubs to whip the Tigers in six games this year."

ONE-MINUTE SPORTS PAGE

Mike Jacobs reports that his engineers (and what's this world coming to when a fight promoter needs engineers?) say that television will have advanced far enough by next June to pipe the Louis-Conn fight into theaters. Orange Bowl scouts will be watching Alabama, Tennessee, Georgia, Mississippi State, Georgia Tech, L. S. U. and Duke in the South and Columbia, Holy Cross, St. Mary's, Tulsa, Oklahoma Aggies, Texas U. and Colorado elsewhere this weekend. Staff Sgt. Laverne Roach of the Cherry Point, N. C. Marine base, says he's flattered to receive Billy Conn's offer of "sponsorship" but he hasn't decided to sign with anyone yet. Larimer county Sheriff Ray Barger wasn't fazed when he had to bust up a post-game brawl between Colorado U. and Colorado Aggies fans after last Saturday's game. He poured in tear gas in the apartment building manner—making it foot bowl, no doubt.

EAR, EAR!

Lieut. Eddie Urban, former Lansford, Pa. sports editor, enroute home from the Pacific, heard the first game of the World Series in Los Angeles, second in Long Beach, Calif., third in Omaha, fourth in Dayton, O., fifth in New York, sixth in Philadelphia and the seventh with his Army brogans parked in front of the fireplace at home. And probably a lot of guys who were there wished they could have done the same.

Salem Places Third In Cross Country Meeting

Glen Thorne of Salem High won first place in the quadrangular cross country meet between Salem, Boardman, Warren and Struthers at Warren yesterday, while the Salem team ranked third.

Low score winning, Boardman had 47, Warren 48, Salem 54 and Struthers 61.

Bill Urbanwitz placed fifth, John Bush ninth, Charles Tolson 16th and Dick Jones 20th for the Quaker runners.

The time set by Thorne was 12 minutes 53 seconds.

Salem Reserves Top East Palestine 19-7

Salem's football reserves rebounded in the final half here yesterday to lace East Palestine's second and third string outfits 19-7 in a game at Reilly stadium.

Passes to End Ray Snyder accounted for two of the rallying touchdowns while Marion Faini plunged over for the final. Salem trailed 7-0 at the half.

Coach Frank Tarr's aggression was pushed around considerably in the first half, but came back strong, making long sustained drives, to win.

Leetonia's seventh and eighth grade teams will meet Coach Bob

Miller's Salem Junior High men at Reilly today.

Salem's reserves meet the Goshen varsity Friday afternoon at 2.

Louis To Meet Conn

NEW YORK, Oct. 16.—Joe Louis is going to defend his title against Billy Conn next June in a bout that will probably draw a \$3,000,000 gate but where the big fight will be held is a guessing game that involves New York, Chicago, Philadelphia and Detroit.

The Brown Bomber signed to defend his title yesterday.

Conn is scheduled to come in tomorrow to scribble his name on the legal document that will enrich him for life.

135 Labor Disputes Keep 385,000 From Their Jobs

The nation's labor disputes, numbering at least 135, kept some 385,000 workers from their jobs today.

In Washington, Secretary of Labor Schwellenbach announced the collapse of the conference to settle the critical soft coal strike.

In New York City, where a 16-day strike of AFL longshoremen has virtually paralyzed shipping in the world's biggest harbor, there was reported violence within the union ranks and by CIO unionists, as extra police were ordered to the waterfront.

On the bright side was the resumption of service to some 1,000,000 New England bus and trolley riders as buses, under control of the Commonwealth of Massachusetts, began rolling after a three-day strike of 1,800 eastern Massachusetts street railway employees.

Although the government in 10 days of meetings failed to get the Lewis coal operators and John L. Lewis' United Mine Workers to agree over the recognition of the mine foremen's union, the labor secretary said he still held hope of solving the dispute.

He said negotiations had adjourned "subject to call," and he was not going to recommend government seizure of the pits.

Reject Five Proposals

He added the way was left open for resumption of negotiations but he did not know of any prospects. The conciliation session adjourned last night, Schwellenbach said, after the operators rejected five separate proposals for settlement.

The scarcity of fuel in many of the strike areas brought further curtailment to steel and other industries, and threatened to close three large Pittsburgh high and junior high schools.

Cold weather in western Pennsylvania may also force some churches to close by the end of the week, a coal merchants' association spokesman said.

Thousands of steel workers have been laid off and production in several big mills has been cut as much as 28 per cent. Three major Cincinnati industries either halted or curtailed production because of the coal shortage. Strikes are in progress in Pennsylvania, West Virginia, Kentucky, Ohio, Tennessee and Indiana.

Violence was reported in the 16-

day old strike of dockworkers in New York harbor, which has virtually halted all out-bound shipping.

Rival Factions Clash
Squads of police came after rival factions within the AFL International Longshoremen's association charged each other with violence and use of "goons" as intimidators. Mayor LaGuardia warned "there will be no rough stuff on the waterfront."

Police estimated more than 5,000 of the estimated 35,000 strikers returned yesterday and the War Shipping administration said work was in progress on 59 ships, including 16 troopships. President Joseph P. Ryan, of the Longshoremen union, who is seeking to end the walkout, said strikers returning to their jobs had been molested by "goons" he identified as members of CIO Maritime and Longshoremen's unions.

COMMUNISTS

ports indicate that a fair and impartial supervised election in Berlin would not support the present Communist party dominance of posts but would reveal relatively strong support going to the Social Democrats and the Christian-Democratic union, in that order.

"The four parties in Berlin joined, on the initiative of the Communist party, in a united front 'political bloc' intended to unify their policies on all important matters. This joint political organization continued throughout the month under review (August) and succeeded in formulating surface uniformity on major questions, with some evidence of dissent dissatisfaction, especially on the part of the two conservative parties. The device of a political bloc will not be encouraged in the U. S. zone, as it runs counter to traditional American concepts of political activity and vigorous political life in a democratic sense."

All four Berlin parties publish newspapers, said Eisenhower, adding: "The newspapers of each party are allocated sufficient newspaper print by the Soviet authorities to print 100,000 copies each, except that the Communist paper is permitted to print 200,000. All papers are subject to Soviet censorship."

The World Today

(Continued from Page 1)

ence of the Big Three—America, Russia and Britain—will control the situation, pending the emergence of the new Asiatic power. China is a logical successor, but it will be long before she could assume the crown, for she is terribly weak in all categories excepting one—the magnificent spirit which enabled her to hang on in face of the Jap onslaught.

China has a monumental task ahead of her. She must repair the terrible ravages of her long war; she must rehabilitate and greatly expand her industries, and she still has to go through the pioneering days in developing the far reaches of a country which is so vast as to be unwieldy.

So China is a logical ultimate successor to the throne, but before we accept this as a finality we should stop and ask ourselves whether there is any other Asiatic power which might intervene. And we shouldn't let that term "Asiatic" restrict our vision, for there's one great power which we have come to regard as European but which also is Asiatic.

That's Russia. The Soviet union is extending its influence methodically in the Asiatic sphere. Japan's defeat is rendering this far easier.

This is no time for prophesy as to what will come out of the Oriental melting-pot, but we shall indeed be short-sighted if we don't recognize that Russia may be the power which will rush into the vacuum created by Japan's elimination. I wouldn't bet a plugged penny against a dollar that this wouldn't happen.

As for Nippon, while she has had to surrender her might, she still can achieve a useful and happy life. As MacArthur says, the Japanese "have for the first time seen the free man's way of life in actual action, and it has stunned them into new thought and new ideas. A revolution—or more properly speaking, the evolution—which will restore the dignity and freedom of the common man has begun."

JAPANESE SILVER CACHE IS LOCATED

TOKYO, Oct. 16.—American division troops have located a cache of Japanese silver bars valued at \$1,000,000. It was announced today.

The silver, buried in an underground room about 100 miles from Tokyo, was found by a detachment under Capt. John Hughes of Los Angeles.

The soldiers started their search after receiving a tip from intelligence officers that a store of silver was hidden in the vicinity of an abandoned machine shop at Haratsuka, near a naval ordnance plant said Pfc. Paul A. Toneman, Washington, D. C., American division press officer.
